

A close-up photograph of a hand holding a small, clear plastic coffee scale cup under the spout of a black coffee grinder. The grinder's control panel is visible at the top, featuring a power button, a circular dial, and a 'PKE' label. The background is a light-colored wooden surface.

# DOSING BY A PRE-SET WEIGHT

# CONSISTENTLY ACCURATE DOSES

*"Dosing by a pre-set weight. Forget about dosing by timer or dosing by volume.*

*Where these dosing methods cause fluctuations, as they get affected by the condition of the coffee or the grind size adjustment, Grind-by-Weight delivers exactly the grams you set.*

*The integrated high-precision load cell underneath the porta-filter support enables ground breaking real-time scale controlled dosing, as it monitors the weight during the entire grinding process."*

## DOSE BY WEIGHT BENEFITS

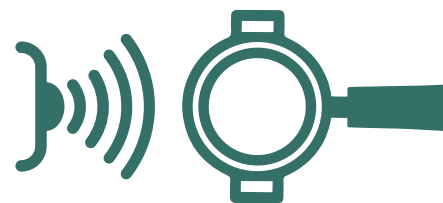

### WORKFLOW

*Greatly increases the speed of preparation and eliminates the time consuming step of weighing doses by incorporating the scale into the grinder dosing mechanism.*

### REAL TIME WEIGHT

*The inclusion of a weighing scale with our On-Demand coffee grinders permits weighing each dose in real time.*

### AUTOMATIC RECOGNITION

*When dosing, the grinder is capable of automatically identifying if the portafilter is a single or a double.*

### HIGH LEVEL OF CONSISTENCY

*Using a proprietary load cell and algorithmic filtering mechanism, an extremely highly level of repeatable weighed doses is made possible for optimal shot consistency.*

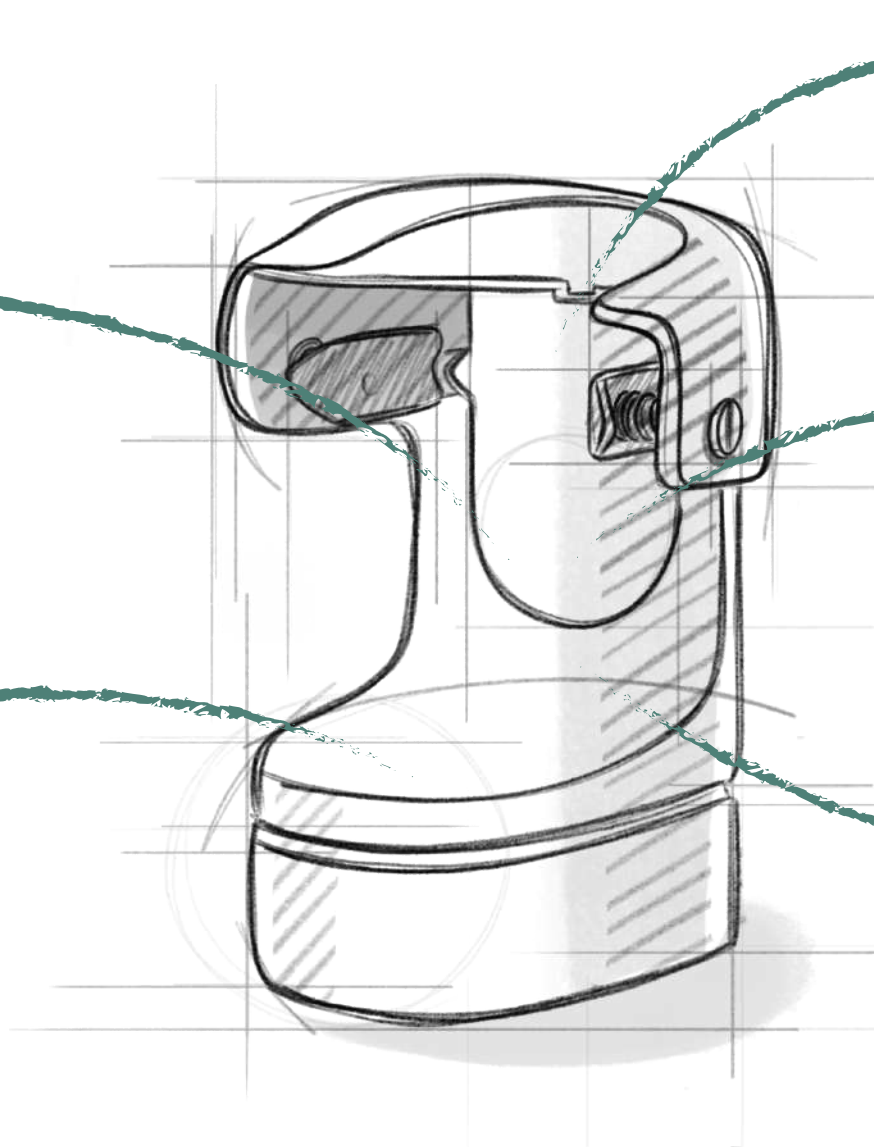

## FEATURES

The system calculates the amount of coffee on each dose, **self learning system**

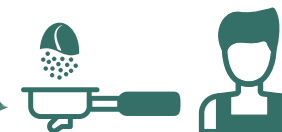

Different modes of operation: **automatic portafilter recognition & manual**

**Up to 10 different portafilter recognition**

**Maximum precision in weight**

**Hands free operation for the barista**

## WORK MODES

### AUTOMATIC

*This allows 10 distinct portafilters or dispensing cups of different weights to be stored by assigning a distinct weight to each of them (improves workflow and avoids errors in the choice of brew recipe).*

### PRESELECTION

*In this operating mode, we preset one, two or three doses of coffee by pressing the corresponding number icon on the display's settings buttons.*

### INSTANT

*In this operating mode, you can select 1,2 or 3 coffee doses by pressing the corresponding number icon on the LCD screen once.*

### MANUAL GRIND

*This operating mode allows you to use the weighing system manually.*

## AVAILABLE MODELS

### PKF

*Motor 950 W  
Burrs Ø 83 mm  
RPM 350*

### PKE

*Motor 950 W  
Burrs Ø 83 mm  
RPM 350*

### F8 MASTER

*Motor 610 W  
Burrs Ø 83 mm  
RPM 1.300*

### E8 MASTER

*Motor 610 W  
Burrs Ø 83 mm  
RPM 1.300*

### E6 MASTER

*Motor 610 W  
Burrs Ø 64 mm  
RPM 1.300*

*High Extraction Yield. Long time burr durability*
